SUMMARY

Information Technology graduate at the Sri Lanka Institute of Information Technology (SLIIT), having completed the academic requirements for a BSc (Hons) in Information Technology. Practical experience in frontend development, UI/UX, Android applications, databases, computer vision, cloud connected systems, and technology operations. Seeking a Graduate or Junior Software Engineer role.

ACADEMIC QUALIFICATION

Bsc (Hons) in Information Technology (Specializing in information technology)

Institution: Sri Lanka Institute Of Information Technology | WGPA: 2.98 | Academic requirements completed.
2024-2026

Higher Diploma In Information Technology

Institution: Sri Lanka Institute Of Information Technology
2022-2024

G.C.E Advanced Level Examination, Sri Lanka | 2022

Chemistry: C | Physics: S | Combined Maths: S

PROFESSIONAL EXPERIENCE

Boswin Group (Pvt) Ltd

2024 – 2025

Frontend Developer & UI/UX Designer

- Developed modular, mobile-responsive frontend elements using React.js, Tailwind CSS, and JavaScript.
- Used Figma and Photoshop to produce design assets and interactive mockups.
- Created UI/UX mockups, interactive prototypes, and design assets for web solutions using Figma and Photoshop.

PortCity Digital (Pvt) Ltd

2026

Operation Officer

- Monitored and verified high-volume financial transactions, including money transfers and user withdrawals, as part of daily system operations.
- Used the internal web platform to validate transaction logs, track pending requests, and verify accurate balance adjustments.

TECHNICAL PROJECTS

Autonomous Polytunnel Agricultural Robot (Agri-GMR) 🔗

Final-Year Research Project

- Designed an autonomous agricultural robot integrating computer vision, autonomous navigation, microcontroller programming, and cloud technologies.
- Implemented YOLOv8 for cucumber leaf disease detection, programmed ESP32 microcontrollers, and integrated Firebase for real-time monitoring and telemetry.

Courier Service Management System 🔗

- Integrated Real-time tracking, Automated driver assignment, Driver management, Notifications, and Customer feedback into a delivery management system.

Online Auction System 🔗

- Developed a Java-based auction system using MVC architecture, MySQL, backend logic, and a Java Swing user interface.

The Task Manager App 🔗

- Developed a native Android task manager in Kotlin with CRUD functionality, SQLite integration, and a mobile user interface.

TECHNICAL SKILLS

- **Languages & Development:** JavaScript, Java, MERN Stack, Tailwind CSS
- **Databases & Cloud:** MySQL, SQLite, Firebase
- **Computer Vision & Embedded:** YOLOv8, ESP32, Computer Vision, Microcontroller Programming, Android Development
- **Tools & Design:** GitHub, Postman, VS Code, Figma, Photoshop, MVC Architecture

VOLUNTEERING EXPERIENCES

SLIIT Media Unit - Committee Member (2025-2026) | STEM Up Educational Foundation - Volunteer (2025) | St. John Ambulance Service - Volunteer (2024)
